

ALEXANDER CARTER

Software Engineer | Backend & Distributed Systems

Pune, Maharashtra, India • +91 90000 12345 • alex.carter@example.com • linkedin.com/in/alexcarter • github.com/alexcarter

SUMMARY

Software Engineer with 4+ years of experience building scalable backend systems and web platforms. Strong in TypeScript, Node.js, PostgreSQL, Redis, cloud storage, asynchronous processing, and REST APIs. Focused on reliable architecture, performance, and production-quality engineering.

TECHNICAL SKILLS

Languages	TypeScript, JavaScript, SQL, Python
Backend	Node.js, Hono, Express, REST APIs, WebSockets
Data	PostgreSQL, Redis, Prisma
Cloud	AWS, Cloudflare R2, Docker, GitHub Actions
Systems	BullMQ, background workers, retries, idempotency
Frontend	React, Vite, Tailwind CSS

EXPERIENCE

Senior Software Engineer — NovaStack Technologies

Pune, India | Jan 2024 – Present

- Designed TypeScript/Node.js services supporting 250K+ monthly active users.
- Built multipart document uploads using presigned object-storage URLs, reducing backend bandwidth usage by ~70%.
- Introduced Redis-backed BullMQ workers with retries, idempotency, failure recovery, and structured logging.
- Optimized PostgreSQL queries and indexes, reducing several slow endpoints by 40–60%.
- Collaborated on API contracts, authentication, observability, and deployment practices.

Software Engineer — BlueOrbit Labs

Mumbai, India | Jul 2022 – Dec 2023

- Developed REST APIs using Node.js, TypeScript, PostgreSQL, and Prisma.
- Built reusable authentication, validation, pagination, and file-processing modules.
- Added automated tests and CI checks while improving Redis-based caching and API performance.

PROJECTS

DocuMind — AI Document Search Platform

TypeScript, Hono, PostgreSQL, Prisma, Cloudflare R2, Redis, BullMQ, React

- Built a RAG platform supporting PDF, DOCX, TXT, and Markdown document uploads and AI-powered document search.
- Designed upload, processing, embedding, retry, and searchable-status workflows using background workers.
- Created a React interface with upload progress, document management, processing status, and conversational search.

EventPulse — Real-Time Event Dashboard

React, Node.js, WebSockets, PostgreSQL, Redis

- Developed a real-time dashboard with WebSocket events, Redis state, reconnection, event deduplication, and role-based access.

EDUCATION

Bachelor of Technology in Computer Science & Engineering

Western Institute of Technology, Pune | 2018 – 2022

CERTIFICATIONS & ACHIEVEMENTS

AWS Certified Cloud Practitioner (2024) • Advanced TypeScript & Node.js Backend Development (2023)
Engineering Excellence Award for improving reliability of a high-volume document-processing service.
